

Silas Stilling-Jørgensen

Computer Science Student

Profile

I am ambitious, patient, and mindful of responsibility and quality. I have a pedagogical approach and strong empathetic abilities, which enable me to engage in committed collaboration with colleagues, focusing on the task and the goal.

I have strong competencies in software development and work with several programming languages, including C#, Python, and JavaScript. I have experience with REST API development, Scrum, test-driven development (TDD), and DevOps principles. I use GitHub for version control and collaboration on code projects.

I am a power user of computers and have experience with Windows, macOS, and Linux. I have worked with Microsoft Azure and MSSQL in connection with cloud solutions and database design. I primarily use Visual Studio Enterprise and Visual Studio Code to develop and test software solutions.

Additionally, I have experience setting up servers and networks, and I have experimented with building computers.

Hobbies

In my free time, I enjoy immersing myself in game development, graphic design, photo and video production, and music production in my home studio. I am also very interested in skiing and cooking.

Moreover, I love to travel and have experienced many parts of the world.
