Silas Stilling-Jørgensen

Computer science student

- Agile & detail oriented
- Serviceminded
- Ambitious
-

PROFILE

Ambitious and curious Computer Science student with a strong passion for games, technology, and software engineering. I'm driven by the desire to combine technical quality with creative user experiences, and I'm eager to learn from the best in the industry.

I have solid experience in backend development using C#, including REST API design, security, and DevOps practices. My projects demonstrate structured thinking, clean and maintainable code, and effective collaboration using Git and version control. In a work environment, I am focused, quick to learn, and proactive. I thrive in team-based settings but also take initiative and responsibility when working independently.

Education

2023 – 2026 **Computer Science AP**, Zealand - Sjællands Erhvervsakademi, Roskilde

The program equips me to work professionally within:

- Software development, including system design, programming, and testing
- Backend and frontend development, database design, and RESTful API integration
- Agile methodologies such as Scrum, DevOps workflows, and continuous delivery
- IT infrastructure, networking, and system administration basics

2018 – 2021 **Upper Secondary Education (STX)**, Roskilde Gymnasium, Roskilde

2017 – 2018 **10th Grade – Media class**, Faaborgegnens Efterskole, Faaborg

2007 – 2017 **Primary and Lower Secondary School** Absalons Skole, Roskilde

About Me

In my free time, I enjoy immersing myself in game development, graphic design, photography, video editing, and music production in my home studio. I'm also passionate about skiing and cooking and love exploring new cultures through travel. I've had the chance to visit many parts of the world. These hobbies fuel my creativity and curiosity and often inspire new technical ideas in my projects.
